

Ten Minute Fillers

Bouncing Raisins

You will need:

- A glass
- Raisins
- Fizzy Lemonade (the fizzier the better)

Directions:

1. Fill a glass with Fizzy Lemonade
2. Drop in a few raisins
3. Watch for a few minutes
4. The raisins will start to bounce

Why do they Bounce?

The raisins drop in the lemonade, but the bubbles of gas from the 'fizz' cling to the raisins and lift them up. The 'fizz' is carbon dioxide which has been pumped into the lemonade.

When the raisins reach the surface, some of the bubbles are lost and so the raisins fall again. This process will continue until the lemonade has lost most of its fizz.

Pizza Bookmarks

You will need:

- Lollipop or craft stick
- Circle of beige card (dough base)
- Circle red paper (tomato sauce)
- Circle yellow paper (cheese)
- Glue and felt tips

Directions:

1. Roughly cut the edges of the red paper so it is smaller than dough base and stick on.
2. Next cut edges of yellow paper so that it is smaller still and stick on top of red paper.
3. Draw on your pizza toppings (mushrooms, sweetcorn etc)
4. Cut out a wedge of pizza and stick it half way up craft stick.
5. Stick pizza slice at top of stick and then decorate Stick with red and green lettering. E.g. Pizza, Italy or a name.
