

Make your own Silver Jubilee mobile

You will need:
Scissors
String or Cotton
Hole Punch

Instructions

- 1) Cut out the 2 circle and 2 diamond shapes (1 on this page and 3 on the next page).
- 2) Decorate the blank sides of the shapes.
- 3) Lay the 4 shapes out on the table in the order you would like them to hang and punch a hole in the top and bottom of the first 3 shapes and just in the top of the bottom shape.
- 4) Tie a small length of string or cotton between each shape.
- 5) Finally tie a longer piece of string or cotton through the top hole in the top shape so that the mobile can be hung up.

Lucy Cowgill

I love my mobile,
why don't you have a go
at making one too!
