How it works

We aim to satisfy the objectives of both partners and look to build on-going relationships with the organisations that we work with. We will work with you to create a bespoke memorandum of agreement with mutual objectives, ensuring the parties involved have a tailored experience.

We look for partnerships that will enhance the experience of our members through exciting events innovative programmes, and exceptional resources.

We are always looking for opportunities to work with organisations and other charities who share our values in order to meet our vision and increase our membership and income, so that we can provide even more exciting opportunities for all our girls.

How you can get involved

We would love to partner with organisations who can help support girls' initiatives and activities or who will join us in a special project, sponsorship or through corporate donations, competitions and staff development days.

You could commission a new badge, fundraise, run an event or residential, or get your staff involved through volunteering.
